**Fighting for your
academic rights**

**Fight for Cost of
living support**

**Empowering
student reps**

**Neurodivergent
Inclusivity**

Vote at q-su.org from March 4-7th

Vote at q-su.org from March 4-7th

I am a third year Irish language and History student and have been a Gaeilgeoir all my life, with vast experience in campaigning both within the SU and the University. I have been an activist within the students Union for over 2 years now, I have tackled the University directly and I have fought for students to not be exploited. I have taken part in the 3Ds campaign which demanded a complete divestment from unethical companies such as Blackrock

Empowering Academic Reps

Student reps are not respected for the contributions to teaching. We must place students at every level of University decision making. **I will advocate and empower student representatives**

Neurodivergent inclusivity

Students who are Neurodivergent or who suffer from disabilities often feel excluded within their courses . **I will push for improved resources for students to make all students feel welcome**

Cost of living support

Many students are struggling in the current crisis access a proper meal during class times. **I will lobby for increased cost of living support for all students**

Fighting for your academic rights

Students are often left in the dark when it comes to their assessments and feedback timelines and how to access their lectures if they are not able to attend. **I will demand Lecture recording and feedback timelines for all courses**
